PARTNERSHIP OF CENTRAL PENNSYLVANIA

## **The Mentoring Partnership of Central Pennsylvania**

The Mentoring Partnership of Central Pennsylvania (MPCP) is the result of the combined efforts of more than 30 local non-profit organizations that have a passion for youth mentoring. This is a first-ever partnership in the Capital Region of Pennsylvania, seeking to support community organizations committed to mentoring at-risk youth in the city of Harrisburg and the surrounding Capital Region.

MPCP serves as a forum for mentoring organizations that are committed to pairing a child who has a need and desire to be mentored, with an adult who has a willingness to mentor.

The Partnership provides guidance, ongoing training and funds to organizations that provide interest-based mentoring programs to at-risk children and youth. MPCP works to bring these organizations together and encourage collaboration. By combining resources and sharing personal experiences, as a group we can improve program quality, increase their capacity, and ensure program longevity.
